This decision is based on our finding that:

The issue before the Board is the assessed value of land/improvements.

A hearing was held on March 21, 2018. Those present: Chairman Jessica Hutchinson, Reta Hutchinson, Ann Shaw, Clerk Debbie Myers, and Appraiser Anthony Clayton. Appellant was not present.

The Board of Equalization reviewed the petition materials submitted by the Appellants representative.

Appraiser Anthony Clayton said there are two distinct groups in the Suncadia appeals. Petitions 170008, 170009, and 170010 are three development parcels. The other three petitions, 170011, 170012, and 170013 are platted lots, all of them are located in Suncadia. He said one parcel is in the process of being platted (170010); and that part of the argument from the Appellant is that a portion must be kept in open space, but this must be sold with three other parcels. He also said the State ruled in Suncadia's favor in the BTA case last year. Appraiser Clayton said the Appellant is requesting a price per acre in line with their comparable sales, which are not necessarily the best comparables. He stated: the zoning is different; these lots are a very small portion of the larger master plan; and that four of the prospective lots in appeal 170010 have already sold before the plat is even complete. Regarding petitions 170011, 170012, and 170013; Appraiser Clayton said these three lots are in front of the lodge and arguably have the best view in all of Suncadia. He said similar lots close to the subject lots sell for \$370,000 to \$490,000 each. He reviewed the comparable sales provided.

The Board of Equalization considered the Appellant's own detailed plan which was sent to the Assessor's office and the comparable sales for lots within Suncadia of similar type and characteristics, and determined that the value of the subject property be upheld. The Board of Equalization voted 3-0 to sustain the Assessor's Valuation.
