

Order of the     Kittitas     County

Board of Equalization

Property Owner:     Testamentary Trust of Jerry McMeans    

Parcel Number(s):     958171    

Assessment Year:     2019     Petition Number:     BE 190048    

Date(s) of Hearing:     11-26-19    

Having considered the evidence presented by the parties in this appeal, the Board hereby:

sustains       overrules      the determination of the assessor.

**Assessor's True and Fair Value**

<input checked="" type="checkbox"/> Land	\$	<u>    142,500    </u>
<input type="checkbox"/> Improvements	\$	<u>                    </u>
<input type="checkbox"/> Minerals	\$	<u>                    </u>
<input type="checkbox"/> Personal Property	\$	<u>                    </u>
Total Value	\$	<u>    142,500    </u>

**BOE True and Fair Value Determination**

<input checked="" type="checkbox"/> Land	\$	<u>    63,360    </u>
<input type="checkbox"/> Improvements	\$	<u>                    </u>
<input type="checkbox"/> Minerals	\$	<u>                    </u>
<input type="checkbox"/> Personal Property	\$	<u>                    </u>
Total Value	\$	<u>    63,360    </u>

This decision is based on our finding that:

The issue before the Board is the assessed value of land/improvements.

A hearing was held November 26th, 2019. Those Present: Chair- Jessica Hutchinson, Vice Chair Ann Shaw, Jennifer Hoyt, Clerk Taylor Crouch, Assessor Mike Hougardy, Appellant Cindy McMeans, and Observer Lisa Lawrence.

The Appellant stated her land values increased, while neighboring homes decreased. She used the site: www.acrevalue.com to determine her land use availability, it revealed the crop growth for her parcels. All parcels but one in discussion are in red zone, some are zoned Ag 20, which makes sales all 20 acres. Appellant found 6 true comparable sales, the Appellant stated her parcels should all average \$528 per acre for land value. She made this case based on a neighboring sale which sold for the same price per acre.

The Assessor stated on these parcels, all but one, are located within the red zone. There is creek irrigation on some portions of parcels and there is seasonal access. This raises the value of those parcels. The sale the Appellant used for her comparison was a section sale of 640 acres, there was a base price, and the price per acre was lower. The Assessor stated her 160 acres of range land was valued at \$750 per acre. Comparative sales show low end, \$721 per acre in true red-zone areas. The Assessor stated A2 land type is valued at \$1,500 per acre, A1 land type valued at \$2,000 per acre.

The Board of Equalization determined that the Appellant's request for a reduction in value was well supported by comparable sales of red zone properties in the area. This property is also significantly affected by power lines. Although the Appellant owns neighboring parcels, the subject parcel is currently land locked without a recorded access easement—which will take time and money to procure. The Board voted 3-0 to reduce the value to \$63,360.

Dated this     20     day of     December    , (year)     2019
