11. Acts of right-of-way vacation;
12. Miscellaneous county actions related to use of public areas or facilities; and
13. Those actions categorically exempt from SEPA review, pursuant to Chapter 15.04 KCC, except as may be required by KCC 15A.03.060(D). (Ord. 2000-07; Ord. 98-10, 1998).

15A.03.090 Review actions on project permit applications.

Project review shall include the following steps:

1. A notice of determination of completeness to the applicant.

2. A notice of application to the public and agencies with jurisdiction.
3. No more than one consolidated open record hearing and no more than one closed record appeal.
4. Provisions may be allowed by the local jurisdiction for any public meeting or required open record hearing that may be held on the project by another local, state, regional, federal, or other agency, in accordance with provisions of Chapter 36.70B RCW.
5. A single report by a representative of the administrator, stating all the decisions made as of the date of the report on all project permits included in the consolidated permit process. The report shall state any mitigation required or proposed under the development regulations or the agency's authority under RCW 43.21C.060. The report may be the local permit. If a threshold determination other than a determination of significance has not been issued by Kittitas County, the report shall include or append this determination.
6. A notice of decision.
7. Except as otherwise provided for in this title, Kittitas County shall issue its notice of final decision on a project permit application within 120 days after Kittitas County notifies the applicant that the application is complete. (Ord. 2000-07; Ord. 98-10, 1998).

15A.03.100 Criteria for review of all project actions.

Project review should start from the fundamental land use planning choices made in local comprehensive plans and regulations, include review of consistency and land use impacts.

1. Applicable comprehensive plans and regulations that identify the type of land use for the site, specify density, and identify and provide for funding of public facilities needed to serve the proposed development and site should be the standard for project review. Consistency should be determined in the project review process by considering four factors found in applicable plans or regulations:
 - a. The type of land use permitted at the site, including uses that may be allowed under certain circumstances, such as planned unit developments and conditional uses, if the criteria for their approval have been satisfied;
 - b. The level of development allowed, such as units per acre or other measures of density;
 - c. Infrastructure, such as the adequacy of public facilities and services identified in the comprehensive plan, to serve the proposed project; and
 - d. The character of the proposed development, such as compliance with specific development standards.
2. In determining consistency, the determinations made pursuant to this title shall be controlling.
3. Project review should not require additional studies or mitigation under Chapter 43.21C RCW (SEPA) where existing regulations have adequately addressed a proposed project's probable specific adverse environmental impacts.
4. Supplemental authority as specified by Chapter 43.21C RCW should be used to the extent that existing requirements do not adequately address a project's specific probable adverse environmental impacts.
5. Nothing in this title limits the authority of a permitting agency to approve, condition, or deny a project as provided in its development regulations adopted under Kittitas County comprehensive plan and development regulations and its policies adopted under RCW 43.21C.060. Project review shall be used to identify specific project design and conditions relating to the character of the development, such as details of site plans, curb cuts, drainage swales, transportation demand management, or other measures to mitigate a proposal's probable adverse environmental impacts, if applicable.
6. Consistency between the proposed project and applicable regulations or plan should be determined through a project review process that integrates land use and environmental impact analysis, so that governmental and public review of the proposed project, involving development

1 regulations under Chapter 36.70A RCW, and environmental process under Chapter 43.21C RCW
2 run concurrently and not separately.

- 3 7. During project review, Kittitas County or any subsequent reviewing body shall not reexamine
4 alternatives to or hear appeals on the items identified in such Kittitas County comprehensive plan
5 and development regulation standards, except for issues of code interpretation.
6 8. When holding a hearing on a project permit application, the hearing body should utilize the
7 following issues outlined as a review guide: earth, air, water (including irrigation water and its
8 conveyances), plants, animals, energy and natural resources, environmental health, land and
9 shoreline use, housing, aesthetics, light and glare, recreation, historic and cultural preservation,
10 transportation, public services, and utilities. (Ord. 2000-07; Ord. 9810, 1998).

11
12 **15A.03.110 Posting sites.**
13

- 14 1. These provisions shall apply to all development applications, except for development applications
15 processed administratively.
16 2. The applicant shall post the subject property with signs as required by Community Development
17 Services.
18 3. Signs shall be posted on each road frontage on the subject property and shall be clearly visible
19 and accessible.
20 4. Signs shall be posted and on-site prior to issuance of a Notice of Application.
21 5. The sign shall be a minimum 2 feet by 3 feet and laminated and posted in a sturdy manner to
22 remain on-site until such a time that written authorization to remove the sign has been issued by
23 Community Development Services. It shall be the responsibility of the applicant to properly
24 dispose of the sign.
25 6. At the time of development application, Community Development Services will identify the
26 number of signs needed and the location of each sign on the subject property.
27 7. It shall be the responsibility of the applicant to place the sign structure in which the sign will be
28 posted on-site. At such time the structure is in place, the applicant shall contact Community
29 Development Services, who will then be responsible for posting the notice on the sign-structure
30 prior to publishing of the notice.

46 **15A.04.010 SEPA integration.**

47 The State Environmental Policy Act is not intended to create a cause of action unrelated to a specific
48 governmental action. Kittitas County shall integrate the permit procedures in this title with environmental
49 review under Chapter 43.21C RCW (SEPA) and Chapter 15.04 KCC as follows.
50

- 1 1. Existing plans, regulations, rules or laws that provide environmental analysis and measures that
2 avoid or otherwise mitigate the probable specific adverse environmental impacts of proposed
3 projects should be integrated with, and should not be duplicated by, environmental review under
4 Chapter 43.21C RCW and Chapter 15.04 KCC.
- 5 2. Through an integrated project review process:
 - 6 a. If the applicable regulations require studies that adequately analyze all of the project's
7 specific probable adverse environmental impacts, additional studies under SEPA will not
8 be necessary on those impacts;
 - 9 b. If the applicable regulations require measures that adequately address such environmental
10 impacts, additional measures would likewise not be required under SEPA; and
 - 11 c. If the applicable regulations do not adequately analyze or address a proposal's specific
12 probable adverse environmental impacts, additional review will be required.
- 13 3. In deciding whether a specific adverse environmental impact has been addressed by an existing
14 rule or law of another agency with jurisdiction with environmental expertise with regard to a
15 specific environmental impact, Kittitas County shall consult orally or in writing with that agency.
16 In making this deferral, Kittitas County shall base or condition its project approval on compliance
17 with these other existing rules or laws.
- 18 4. Nothing in this title limits the authority of an agency in its review or mitigation of a project to
19 adopt or otherwise rely on environmental analyses and requirements under other laws.
- 20 5. Except for a determination of significance, the administrator may not issue his/her threshold
21 determination under SEPA, or issue a decision or a recommendation on a project permit until the
22 expiration of the public comment period on the notice of application, except for categorical
23 exemptions.
- 24 6. Nonsignificant threshold determinations shall be included with or appended to the single report of
25 decision or recommendation.
- 26 7. An environmental impact statement (EIS) shall be prepared on proposals for legislation and other
27 major actions having a probable significant, adverse environmental impact. The EIS may be
28 combined with the recommendation or report on the proposal or issued as a separate document.
29 The substantive decisions or recommendations shall be clearly identified in the combined
30 document. (Ord. 2000-07; Ord. 98-10, 1998).

31 32 **15A.04.020 Appeal of SEPA actions.** 33

- 34 1. Appeals shall be of the governmental action together with its accompanying environmental
35 determinations. Kittitas County shall consolidate an appeal of procedural issues made under
36 Chapter 43.21C RCW and Chapter 15.04 KCC (such as a decision to require particular mitigation
37 measures or to deny a proposal) with a hearing or appeal on the underlying governmental action
38 by providing for a single simultaneous hearing before one hearing body to consider the agency
39 decision on a proposal and any environmental determinations made, with the exception of the
40 appeal, if any, of a threshold determination of significance.
- 41 2. Appeals of environmental determinations made or lacking under Chapter 43.21C RCW or
42 Chapter 15.04 KCC shall be commenced within 10 working days to the Kittitas County board of
43 commissioners, with appropriate administrative fee. Such appeals shall be filed pursuant to
44 Chapter 15A.07 KCC. The agency shall give official notice stating the date and place for
45 commencing an appeal. If there is no time period for appealing the underlying governmental
46 action, and a notice of action under RCW 43.21C.080 is used, appeals shall be commenced within
47 the time period specified by RCW 43.21C.080.
- 48 3. Appeals on SEPA procedures shall be limited to review of a final threshold determination and
49 final EIS. These appeals may occur prior to an agency's final decision on a proposed action.
50 Appeal of the intermediate steps under SEPA (e.g., lead agency determination, scoping, draft EIS
adequacy) shall not be allowed.

- 1 4. Kittitas County shall provide for only one administrative appeal of a threshold determination or of
2 the adequacy of an EIS. Successive administrative appeals on these issues shall not be allowed.
3 (Ord. 2000-07; Ord. 9810, 1998).
4

5 **15A.04.030 Notice of SEPA actions.**
6

- 7 1. Notice of any SEPA action taken by a governmental agency may be publicized by the acting
8 governmental agency in substantially the form as set forth in rules adopted under RCW
9 43.21C.110:
10 a. By publishing notice on the same day of each week for two consecutive weeks in a legal
11 newspaper of record;
12 b. By filing notice with the Department of Ecology at its main office in Olympia prior to the
13 date of the last newspaper publication; and
14 c. Mailing notice to all parties on the notice of application listing, as defined in Chapter
15 15A.03 KCC.
16 2. Except as otherwise provided in RCW 43.21C.075(5)(a), any action to set aside, enjoin, review,
17 or otherwise challenge any such governmental action or subsequent governmental action for
18 which notice is given as provided in subsection A of this section on grounds of noncompliance
19 with the provisions of this title and other laws shall be commenced within 21 days from the date
20 of last newspaper publication of the notice pursuant to subsection A of this section, or be barred.
